SUB: requirement of structural Audit for A-Building.

We request u to conduct structural Audit of A building due to heavy leakage of rainwater in rainy season. From last 3 years we are facing issue of heavy leakages of 3rd floor ceiling due to which leakage water percolates till ground floor flat resulting in gathering of fungus all over bedroom.

Hence structural audit needs to be carried out as early as possible as rainy season is approaching.

Kindly give me confirmation regarding the same in writing within 15 days.

Looking forward for your cooperation & timely support.

Thanking you,

Yours respectfully,

(Niranjan P Desai.)(Mrs. Jyotsna N Desai.)
